ACCURATE RFID READING IN A CONVENIENT PORTAL

- Accommodates Wide Variety of Carts
- Reads 1,000 Plus Items in 10 Seconds
- Isolates Reading to Inside the Portal
- Designed for Rugged Use
- Available in Manual and Automatic Door Configurations

LIGHTNING RFID PORTAL

Positek RFID created the Lightning Portal in response to the demand for a smaller, less expensive RFID portal. It includes the same fast and accurate automatic RFID reading components as our larger Cyclone Portal and Tornado Portal.

Automated reading eliminates read rates that can be affected by employee technique. RFID reading with the Lightning Portal is started with the press of a button and can only begin when the door is closed. A Red indicator light illuminates during reading. When reading is complete, the light turns Green and the door can be opened. Positek RFID's software communicates with third party software packages as well as with the Positek RFID Software suite.

The Lightning Portal can be used for both soiled and clean textiles as well as assignment of RFID to new textiles.

Exterior Dimensions

Doors open 180°: 122.6"W x 82.8"H x 94.1"D

Doors open 90°: 63.9"W x 82.8"H x 94.1"D

Doors closed: 56.7"W x 88.6"H x 67"D

Interior Dimensions

Total Dimensions: 49.3"W x 79"H x 60"D

Weight

Total weight: 1,150.3 lbs
