# UPDRAFT RFID PORTAL

Positek RFID'S Updraft RFID Portal is designed to fit over existing floor scales and can be installed at ground level or recessed into the floor. Automated reading eliminates read rates that can be affected by employee technique.

The unique design limits reading outside of the portal and concentrates the signal where it is needed most. Two designs are available – a 3-Sided model and a two-sided Pass-Through model. Positek RFID's software communicates with third party software packages as well as with the Positek RFID Software suite.

The Updraft RFID Portal can be used for both soiled and clean textiles.

## Exterior Dimensions

Total dimensions: 73.2"W x 51.2"H x 68.2"D

## Interior Dimensions

Total Dimensions: 48.8"W x 51.2"H x 65.8"D

## Weight

Total weight: 700.1 lbs

\*Size is adjustable to fit scales from 3' to 5'
